

## Complements NPWT Therapy

Controlled  
Compression

**Reusable and  
eliminates the  
need for tape**

- Stabilizes the wound and periwound
- Adjustable, can remove & reapply for wound care & dressing changes
- A durable wound dressing cover that can be worn up to 2 weeks or more
- Assists wound closure when NPWT in place
- Silicone tackiness does not cause contact sensitivity reaction or skin stripping
- Easily conforms to patients contours
- Significantly increases patient comfort
- Hydrophobic - can be worn in the shower
- Clean with soap/water, air dry, reapply
- Consistent patient satisfaction
